

Wiha Bit Family

2014

wiha 
Premium Tools

Wiha MaxxTor Bits

Maximum lifespan – maximum torsion

- Maximum torsion zone for a longer-lasting bit
- Optimised for tough fastening and for impact use
- Ideal for high performance drill and impact drills

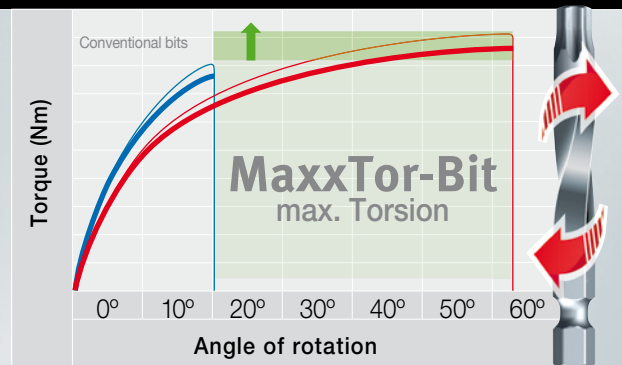

29er

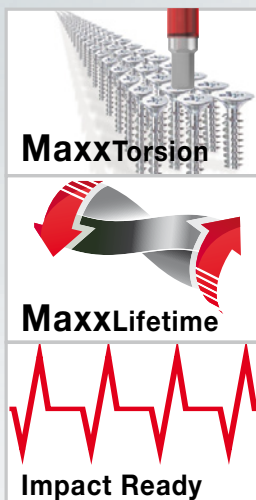

49er

- Lasts twice as long as other high performance impact bits
- 3 times the lifespan compared to standard bits*
- At least 30% more torsion*
- 1/4" hex, combination drive for bit holder in accordance with DIN 3126, ISO 1173 style D 6.3 and F 6.3
- 70% longer lifespan compared to the best T25x50 high performance impact bits on the market*
- Ideal for continuous impact use
- Improved work safety – no flying chips
- E6.3 drive – excellent functionality in impact screwdrivers

* Data refers to a comparison to high performance impact bits.

Wiha MaxxTor BitBuddy

Maximum efficiency with direct bit mount

No hand free?

And which bit has the profile you need?

- Wiha has put an end to these problems. The new bit box enables you to work more quickly and efficiently than ever before

29er BitBuddy

C6.3

BitBuddy

- Direct bit insertion from drill into the holder
- Single-hand opening mechanism
- Profile type lasered on the bit base
- Functional sorting system
- Compact – handy

Belt clip

- Belt clip to match the 29er and 49er and FlipSelector
- For open or closed BitBox

Wiha bit holder

For rapid changing of bits without tools

Bit holder system

- Fast, saves time when changing tools
- Secure
- Secure joint between the tool in use and the holder
- Without play
- For precise drilling
- Universal
- Suitable for all 1/4" hex drives

CentroFix SuperSlim

CentroFix SuperSlim

- Up to 30% reduced outer diameter compared to "conventional" quick release holders
- SelfLock
The bit is locked mechanically and held securely when inserted
- EasyOut
When unlocked, the bit moves into the ideal removal position
- Screw accessibility is better, for instance in narrow holes

Wiha bit holder

For rapid changing of bits without tools

MagicFlip Force

- FlipBack
The operating sleeve automatically springs back during recessing. Extremely strong Neodym ring magnet, holding force 16N
- Magnet On/Off
The ring magnet can be "deactivated" by pushing the operating sleeve back
- New – operating sleeve of robust steel

Universal holder

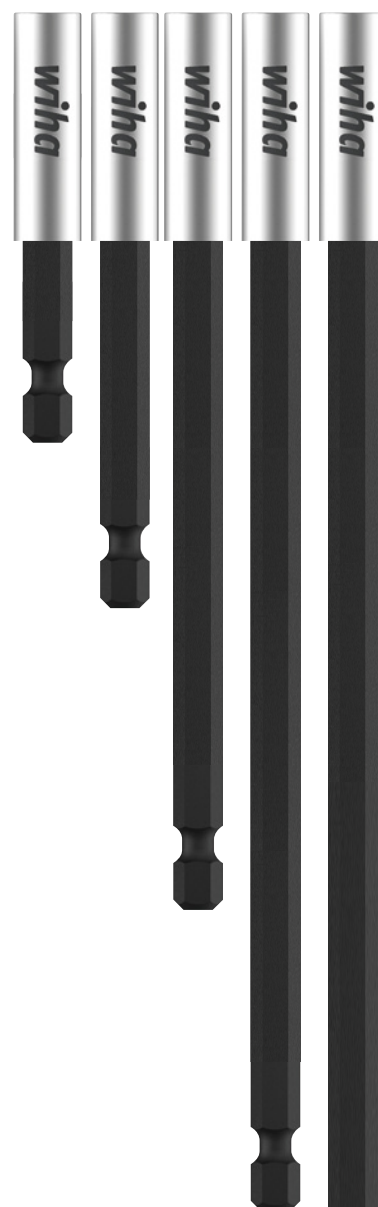

- Universal holder, magnetic
- Style E6.3 for C6.3 bits

- Universal holder, magnetic / retaining ring

- Universal holder, magnetic / retaining ring
- Style E6.3, Stainless steel
-Lengths from 72 to 250 mm

CentroFix Force

CentroFix Force

- Suitable for all bits with 1/4" hex drive style C6.3 and E6.3
- Operating sleeve of robust, hardened steel
- SelfLock
The bit is locked mechanically and held securely when inserted
- EasyOut
When unlocked, the bit moves into the ideal removal position

Wiha Magazine bit holder

Everything under control

Magazine bit holder

product
design award

2014

LiftUp 25

- Many versatile applications thanks to its 12 bits
- Bit magazine opens at the press of a button
- Ergonomically designed SoftFinish® multi-component handle
- 1/4" bit holder, magnetic
- Turnable cap

LiftUp 70

- With six 70 mm bits style E6.3
- Also ideal for use with a battery-powered screwdriver
- Particularly simple bit removal
- Bit magazine opens at the press of a button
- Ergonomically designed SoftFinish® multi-component handle
- 1/4" bit holder, magnetic
- Turnable cap

Topra 2K Bit

- Ergonomically designed pistol handle
- Finely serrated ratchet with 72 teeth, reversible
- Six 25mm bits in the handle
- 1/4" bit holder, magnetic, removable
- Further adapters for SYSTEM 6, 1/4" and 3/8" sockets available

Magazine bit holder

reddot design award
best of the best 2008

**Magazine bit holder,
telescopic**

Magazine bit holder

- Unique fold-out mechanism
- Eight screwdrivers in one – for timesaving, effective working
- 1/4" bit holder, magnetic
- Ergonomic SoftFinish® zone
- Handy & compact

Magazine bit holder ClicFix, telescopic

- Swivelling bit magazine
- Adjustable blade length from 50 – 85 mm
- ClickStop ball clamp for a secure hold
- ClicFix quick release holder, magnetic
- Adapter blade also suitable for use in battery-powered screwdrivers

Stubby magazine bit holder

Magazine bit holder Stubby

- Gets everywhere
- With 6 bits, Form C6.3
- Has six bits in the cap
- Fits perfectly in your hand
- Ideal for professional work in confined spaces

Wiha FlipSelector

It can't get any more compact than that

FlipSelector

FlipSelector

- Contains 12 bits and a bit holder
- Bit box made of impact-resistant polyamide – permanently robust
- Effortless handling, opens at the press of a button
- At 99x63x17 mm, it fits into any shirt or trouser pocket
- Optional belt clip available to facilitate work further

Belt clip

- Belt clip to match the 29er and 49er and FlipSelector
- For open or closed bit box

Bit ratchet

- Drop forged – particularly robust
- Ergonomic handle
- Practical thumb wheel – eases applying, fastening and releasing
- Finely toothed – 72 teeth
- Clockwise and anticlockwise direction can be switched via switching lever
- Working in extremely tight spaces – minimal switching angle of 5°

Intelligent bit storage

Pure efficiency – the bits are always at hand

XLSelector

XLSelector

- Extremely flat and compact bit box, containing with 30 bits and a bit holder
- Bit box with soft zones for non-slip grip and comfortable handling
- Easiest removal of the clearly arranged bits
- At 135 x 80 x 17.5 mm, it even fits into shirt or trouser pockets
- Its compact design allows you to store it easily in your toolbox

XLSelector with ratchet

XLSelector with ratchet

- Contains 15 bits, bitholder and bit ratchet
- 1/4" universal holder can be used as an extension
- Ratchet finely toothed – 72 teeth

Wiha bit assortment

The right bit for any application

Wiha MaxxTor-Bit

- Double lifespan compared to high performance impact bits
- 3 times the service life compared to standard bits
- At least 30% more torsion
- Based on DIN 3126, ISO 1173, Form C 6.3, also compatible with bit mounts for E 6.3 bits

* Data refers to a comparison to T25 bits. Source: T25 MaxxTor benchmark test VPA - 7/2012

Wiha DuraBit®

- The screw head has an extremely wear-resistant hard metal coating that is also used in aviation and space travel.
- The extraordinary reduction in the cam out effect prevents the bits from slipping out.
- Tungsten-carbide particles guarantee a lifespan that is distinctly longer than that of a diamond coated bit

Wiha Diamond Bit

- Reduction:
 - in the contact force that needs to be applied
 - in the wear of bits and screw heads
 - in the time required for screwing, thereby reducing the cost
 - in slipping out of the screw head
- Entire bit has a nickel coating for long-lasting corrosion resistance

Wiha Inkra-Bit

- Even when operating a power tool or handheld screwdriver at a slanted angle, the depth of insertion in the screw head is practically constant
- Wear and pressure forces at the tip of the bit and the screw head are reduced
- Especially long lifespan
- The ideal bit for joiners, carpenters and dry wall specialists

Wiha ZOT-Bits

- Tough-yet-flexible torsion quality. Particularly suited for hard applications
- Ideal for fastenings in metals and hard materials
- Elastic torsion zone reduces the strong torque peaks in the final phase of fastening
- The special heat treatment makes it extremely wear resistant
- Hardness 61-2 HRC
- For craftsmen and industry

Wiha HOT-Bits

- Extra hard torsion quality. Particularly suited for soft applications
- Ideal for fastenings in wood and soft materials
- The average requirements in terms of elasticity are used to optimise these bits to provide much better performance and wear-resistance
- Hardness 63-2 HRC

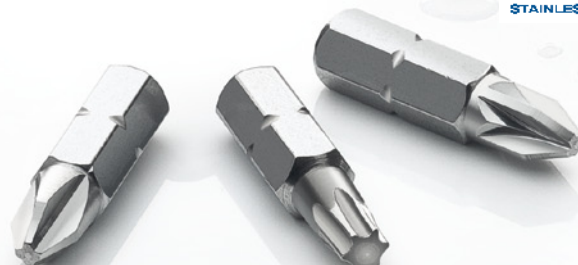

Wiha TiN-Bits

- Tough-yet-flexible torsion quality with very hard titanium nitride (TiN) coating
- Optimal wear-resistance with extremely hard TiN coating
- Combines the advantages of the Wiha HOT bits and ZOT bits in one outstanding bit
- For craftsmen and industry, especially for production lines

Wiha Stainless Steel Bit

- Resilient, corrosion- and acid-resistant
- Chromium content > 10.5%
- Ideal for fastening of stainless steel screws

Wiha supplies for tradesmen

Common bits in a reusable box

SB bit assortment

- Full-size label with viewing window allows a view of box contents
- Large, clearly laid out description of quality, size and quantity
- Reusable plastic box
- Full assortment
- Slotted, Phillips, Pozidriv, hex and TORX® drives, various bit holders and tool shafts
- In bit types: Dura, Diamond, TiN, HOT, ZOT, Inkra and Standard
- 1 pc, 2 pcs, 3 pcs, 6 pcs, 10 pcs and 20 pcs

Also available with 10 or 20 bits!

Wiha SB bit assortment

Full assortment in outstanding quality

SB-Range

Wiha SB bit assortment.

- Over 150 different items
- Bits and bit holders in re-usable plastic box
- Attractive blister packs for:
 - bit boxes
 - magazine bit holderers
 - offset screwdrivers
 - bit ratchets

Products are presented attractively in the practical Wiha blister packs and cardboard packaging. The bits are easily recognisable in the transparent packaging. In addition, the labels provide all necessary information and at the same time ensure protection against theft. Contents, EAN code, article number and order number – everything can be seen at a glance with the large-format symbols.

A comprehensive range:
The Wiha SB bit assortment includes more than 100 different items.

Wiha sales displays
