Soldering iron
WXP 65 (65 W, 24 V)

Achieve a maximum performance with only 65 Watts! Due to this new and intelligent soldering tool WXP 65. It is THE convenient tool for delicate soldering jobs where high temperature is required.

The soldering iron WXP 65 is perfect for keeping running costs as low as possible. The new XNT soldering tips with "Fast Response" technology are available at a fair price.

- **Intelligent soldering iron**

Parameter memory read in the grip for saving the most important data on the iron. Adjustment of the soldering station is not needed.

- **Slim, ergonomic soldering iron**

This soldering iron is comfortable to handle and is very easy to use.

- **XNT-"Fast Response" soldering tips**

The new soldering tips series for optimum performance. And the best: due to fair soldering tip prices the running cost will stay as low as possible.

- Improved heat transfer
- Soldering tip with optimized sensor position
- Fast recovery time

- **Actual status easy to see**

The blue ring light shows the status of the iron

Blue: Iron has reached working temperature

Light is blinking: Standby or heating up

Light is off: Iron is off
